ABOUT ME

As a software developer with a focus on backend development, I have a foundation in data structures and algorithms and I am working to proficient in programming language Python. I have a solid understanding of a wide range of technologies; databases like Postgresql, and MongoDB, as well as in-memory data stores like Redis. As a web developer, I am knowledgeable about HTML, CSS, JavaScript and Flask Framework. I am always looking for ways to apply my skills and knowledge to new challenges and continue learning and growing as a developer. I adapt easily to new technologies and my learning ability is strong.

I graduated from Karabuk University as Energy Systems Engineer and at the same time, I am a Computer Programming student at Anadolu University. I've 1.5 years of 'CNC Programming-Operator' experience. I've been in the music industry for 14 years. The instruments that I can play are the guitar, drums and piano.
